THE PROCESS

Create your post (offers)

Public Network

- Create your post (offer) by specifying exactly what you wish to buy or sell.
- Buy/sell Post (offer) is visible to everyone on the platform.

Selected Network

- You can send your buy/sell offer only to your selected buyer/seller.
- This will only be between you and your selected parties and not public.
- We value your privacy. No one can see your offers and deals.

Search for post (offers)

- Quick search of existing post (offers) on the platform.
- Filter your search with parameters like product, price & location
- Find your perfect match!

Negotiate & Make Deal

- Get notified when someone starts negotiating on your buy / sell offer.
- Send a request to start negotiation on others' buy / sell offers.
- You can negotiate on parameters, price, payment conditions, laboratory etc.
- Once buyer and seller agree with all the terms & conditions, immediately they can make the deal and it will be verified by OTP.

Contract and Transaction Tracking

- Auto contracts will be sent to buyer, seller and broker immediately after making a deal.
- Keep a track of all your transactions by monitoring each step from selling/buying to delivery/procurement.
- Contract, sampling, lab report, pass/fail or re-negotiations, dispatch, invoice, payment etc. steps will be shown in transaction tracking.
- Have all your dealings under one roof for easier reference.

Re-Inventing cotton trade for the digital generation!
